<b>Reporting Process:</b>					
<p>Asilomar Live Release Rate. This is the industry standard measurement dictating how many animals leave the shelter alive. Utilized in the defining of "No-Kill" shelters (over 90%). Formula = Live Outcomes/(Total Outcomes - OR Euthanasia)</p> <p>Save Rate. This statistic is becoming more popular and measures how many animals are not euthanized. Formula = (Live Intake - Shelter Euthanasia)/Live Intake)</p>
